Sudden Cardiac Arrest Education and Information

What is sudden cardiac arrest?

Sudden cardiac arrest (SCA) is when the heart stops beating, suddenly and unexpectedly. When this happens, blood stops flowing to the brain and other vital organs. SCA is NOT a heart attack. A heart attack may cause SCA, but they are not the same. A heart attack is caused by a blockage that stops the flow of blood to the heart. SCA is a malfunction in the heart's electrical system, causing the heart to suddenly stop beating.

If not treated within minutes, SCA results in death. The normal rhythm of the heart can only be restored with defibrillation, an electrical shock that is safely delivered to the chest by an automated external defibrillator (AED).

How common is sudden cardiac arrest?

The Centers for Disease Control and Prevention estimate that every year there are about 300,000 cardiac arrests outside hospitals. About 2,000 patients under 25 die of SCA each year.

Are there warning signs?

Although SCA happens unexpectedly, some people may have signs or symptoms, such as:

- dizziness;
- lightheadedness;
- · shortness of breath;
- difficulty breathing;
- · racing or fluttering heartbeat (palpitations);
- syncope (fainting);

- fatigue (extreme tiredness);
- weakness;
- nausea;
- vomiting; and
- chest pains.

These symptoms can be unclear and confusing in athletes. Often, people confuse these warning signs with physical exhaustion. SCA can be prevented if the underlying causes can be diagnosed and treated.

What are the risks of practicing or playing after experiencing these symptoms?

There are risks associated with continuing to practice or play after experiencing these symptoms. When the heart stops, so does the blood that flows to the brain and other vital organs. Death or permanent brain damage can occur in just a few minutes. Most people who have SCA die from it. Symptoms are the body's way of indicating that something might be wrong. Athletes who experience one or more symptoms should get checked out.

What is the best way to treat Sudden Cardiac Arrest?

- Early Recognition of SCA
- Early 9-1-1 access
- Early CPR
- Early Defibrillation
- Early Advance Care

Act 59 - the Sudden Cardiac Arrest Prevention Act (the Act)

The Act is intended to keep student athletes safe while practicing or playing. The Act requires:

- Any student athlete who has signs or symptoms of SCA must be removed from play.
 The symptoms can happen before, during or after activity. Play includes all athletic activity.
- Before returning to play, the athlete must be evaluated. Clearance to return to play must be in writing. The evaluation must be performed by a licensed physician, certified registered nurse practitioner or cardiologist (heart doctor). The licensed physician or certified registered nurse practitioner may consult any other licensed or certified medical professionals.

A Catholic Tradition in Academic Excellence

November 28, 2023

Dear Parents/Guardians,

Because we live in an area where the weather is so unpredictable, there are times in which the children come to school and then must be dismissed early. Your child's safety is always our number one concern. It is very important that we know how to send your child home when these situations occur. Please complete the form below and return it to your child's teacher as soon as possible. Please be sure to fill out one form per child in our school.

Note: If your home School District is closed, there is no bus transportation to or from St. Jane School. Occasionally, on early dismissal days, school districts dismiss at different times as well. St. Jane School follows the Easton Area School District closings, delays and early dismissals. The walkers/car riders will be dismissed at the time Easton School District designates. Children who live outside the Easton Area School District and ride a bus from Bangor, Bethlehem, Nazareth, Saucon Valley, and/or Wilson will wait in the school with me until their bus arrives.

The process for notification of early dismissal or school closing: A parent alert will be sent via text and phone call to the numbers listed in FACTS, an email will also be sent, a posting will be made to WFMZ, Channel 69 TV, and it will also appear on our School's FaceBook page.

Please DO NOT call the school or email dismissal arrangements on early dismissal days. We need to leave our phone lines open for calls from the many school districts to contact us. It's quite a hectic time. Please make arrangements with your child in the morning <u>BEFORE</u> you leave for school and <u>PLEASE</u> send a note if dismissal will be different. Thank you for your attention to this important matter.

EXTENDED CARE IS NOT AVAILABLE ON EARLY DISMISSAL DAYS

Sincerely,

Mrs. Marybeth Okofa, Principal
