Keep Your Kids Safe Online

CyberSafety

DO'S & DON'TS FOR PARENTS

STAY IN THE OPEN

Keep devices in open spaces.

New research indicates bedroom technology use is more harmful.

GIVE TIME LIMITS

The AAP* recommends ZERO device time for kids under 2, ONE hour from age 2-5 and no more than TWO hours for all other kids.

STAY CONNECTED

If your kids are on social media, do stay connected digitally. Friend, follow or like their profiles online.

USE SAFETY FEATURES

Use the settings features to set up parental controls on each device, then check provider sites for additional tools to block bad content.

TALK EARLY AND OFTEN

Start conversations about cyber safety early and keep talking about the good and bad things online.

*American Academy of Pediatrics

IGNORE

Teach kids how to recognize and report bad behavior by NOT ignoring it. Show them and discuss as needed.

ALLOW MULTI-TASKING

One quality device at a time is all that is necessary. Avoid using TV and phones or tablets, etc.

OVERSHARE

Respect your children's right to privacy AND model good digital habits by checking with them BEFORE you post about them online.

OVERREACT

Your child, or their friends, will likely make a bad choice online. Talk about what went wrong and how to fix it focusing on the action as wrong and not the person.

FORGET TO USE YOUR EYES

Monitoring apps and services are great but don't forget to check text messages or history logs with your own eyes.

******Calling all Grandparents******
