## Where to Go!

Summer can sometimes keep us busy, and out of the house with no time to cook our own meals. Often we need to eat out and that comes with the decision, where to go. Choose a food type you love to order when eating out and name two places you went to eat it this summer. Write a separate paragraph for each place describing the look, feel, and service at the place and describe the meal you ate. Then decide if it is a place you would like to eat at again and tell why.

Use the organizer on the back of this paper to help you prepare to write your two paragraphs. Each paragraph should have about 5-7 sentences. This project may be handwritten or typed. Include pictures of the food, the place, or yourself enjoying your meal. Pictures may be hand drawn, photos, or printed from the internet. Projects need to be handed in to your fifth grade teacher on the first day of school for a grade and to place on display. If needed, pages may be stapled together or presented on a poster. Be sure to have your full name on your work.

Enjoy your meal!
