Dear Parents:

It is with great excitement that we extend an invitation to join the instrumental music program at your school. We are looking forward to a wonderful year of making music!

Each year students eagerly await their turn to join/rejoin our instrumental music program. The study of music could be one of the most valuable steps in your child's education. Some of the benefits your child can receive from it are responsibility, mental discipline, teamwork, self-esteem, and above all an enjoyment and lifelong appreciation of music. They will also be participating with a positive peer group that can influence their success in other academic and social areas. Our experience as music teachers has convinced us that any child willing to put in a reasonable amount of effort can succeed.

Parents and students often wonder if the time required in music will hinder other studies. The National Association of Elementary School Principals reports that children who participate in music often excel in academic areas. Their study shows that music can enhance reading, writing, math, history, art, eye-hand coordination, memory, self-discipline, and the ability to follow directions.

Attached to this letter is a list of frequently asked questions about the program, including grade eligibility.

INSTRUMENTAL MUSIC FAQs FOR PARENTS

Does my child need to know how to play an instrument to join?

No. We teach your child everything he/she needs to know to play their musical instrument.

When will lessons meet and how much time will it take?

Your child will receive one (1) small group lesson each week during the school day. All lessons are 30 minutes and meet on a rotating schedule so students do not miss the same class each week.

How much does participation cost?

There are two components to participation in the program: tuition and a **quality** musical instrument. Rates vary depending on the type of plan you select and any associated rental costs. Complete rate information for tuition and a musical instrument can be found on our company website.

What grades are eligible to participate?

Students can sign up for a string instrument as early as 3rd grade, and band instruments starting in 4th grade. Not all schools offer strings – contact your school or music teacher to confirm offerings.

If my child doesn't sign up now, will he/she be able to later?

Although we do not recommend delaying enrollment in the program, we do welcome registrations throughout the year. Students that join the program mid-year will have to work diligently to catch up to their peers. Our teachers will do their best to get your child caught up.

Will participation affect my child's grades in other subjects?

It will almost surely help them. Research has shown that band has a positive influence on other studies. Music students consistently average higher grades than non-music students.

Can you be in the band/orchestra and be involved in other school activities like sports, cheerleading, dance, step, chorus, or art?

Yes, many of our music students are involved in other electives and activities.

My child is involved in so many activities. Won't those activities affect his/her performance in band/orchestra and vice versa?

Music students often have many varied interests that make them among the busiest students in the school. The experience that they gain in balancing these interests and activities often proves to be one of life's most valuable lessons.
